BY-BOO

By-Boo

By-Boo is a Dutch brand which has been the finishing touch of many interiors since it was first founded back in 2013. Doing it with all cool products that are just a tad different from the rest. By-Boo will not restrict itself and uses it's own ways to give a special touch to the current trends in living. By doing this we fulfil many styling dreams.

So whether it is the eye catching UnbeLEAFable, that oh-so-soft plaid Wuzzy, trendy cushions Bilo and Nett, or awesome wall decoration Faisan.

By-Boo always knows how to surprise.

The bedroom, a place where day and night come together. This is the starting point of this look. The black objects of the night are in contrast to the natural nude and brown tones of the day. Opposites that need each other. Even in the choice of materials you can recognize the opposites. From a solid wooden bench against the sophisticated lines of the metal lamps. And from the solid metal cabinet against the soft fabrics like the fabric of the loungechair.
